

TAPE

With a large variety of bulk packaging tape products in stock, we are sure to have something that will fit your packaging, shipping, and everyday needs.

Enjoy free shipping on all Tape products!

Bag Tape

- High grade natural rubber and resin adhesive with PVC film backer
- Perfect for sealing food bags, storage bags, and various other applications
- Various colors available
- Dispenser bundles available
- Poly bag tape dispensers are available for these products to prevent strain on the user.

Duct Tape

Duct Tape is a versatile and durable adhesive tape that is widely known for its strength and versatility. It is a multipurpose tool that finds its use in a variety of applications, making it a staple in many households, workshops, and industries. The tape is made of a strong fabric backing, commonly woven from cotton or polyester fibers, coated with a pressure-sensitive adhesive.

Shield Duct Tape

- Easily torn by hand to desired length
- Used for general maintenance and repairs
- Ideal for both industrial and residential purposes
- Aggressive synthetic rubber adhesive
- Superior, durable backing
- Brand: Shield Tape

Colored Duct Tape

- Easily torn by hand to desired length
- Used for general maintenance and repairs
- Ideal for both industrial and residential purposes
- Aggressive natural rubber adhesive
- Superior, durable backing

Carton Sealing Tape

Carton Sealing Tape is commonly used for sealing corrugated cardboard boxes closed for shipment. With a large variety of bulk packaging tape products in stock, we are sure to have something that will fit your packaging, shipping, and everyday needs.

Acrylic Carton Sealing Tape

- Strong adhesion to surfaces
- Smooth unwind and application
- Resistant to breakage and seam splitting
- 3" core diameter - convenient for use with tape dispensers

Hot Melt Carton Sealing Tape

- Pressure sensitive hot melt adhesive
- Strong adhesion to surfaces
- Resistant to breakage and seam splitting
- Hot melt is used for medium-to-heavy-duty packaging applications
- 3" core diameter - convenient for use with tape dispensers

Cold Temperature Carton Sealing Tape

- Pressure sensitive, hot melt adhesive
- Formulated to perform in refrigerated and freezer temperatures
- Performs in extreme temperatures: -40 °F to 140 °F
- Useful in product, dairy, meat, poultry and other food packaging applications

Color Packing Tape

- General purpose tape available in a variety of colors
- Useful for package identification purposes
- Recommended for product coding and dating inventory in warehouse locations
- 3" core diameter - convenient for use with tape dispensers

Hybrid Acrylic Tape

- Hot Melt Acrylic Hybrid features a blend of acrylic and rubber solvent
- Great for light to medium-duty packaging
- High tensile strength and shear resistance
- Withstands extreme temperatures
- UV resistant

Label Protection Tape

- Protects shipping labels from falling off or becoming damaged
- Wide width clear tape
- Strong adhesion to surfaces
- Resistant to breakage and splitting

Natural Rubber Carton Sealing Tape

- Made from natural rubber
- High quality adhesive for sealing heavy or recycled cartons
- Can be applied at room or cold temperatures
- Good edge tear and split resistance

PVC Carton Sealing Packaging Tape

- PVC Film backing with Natural Rubber adhesive
- Excellent tack properties
- High shear tape with greater holding power
- Excellent for both industrial and residential purposes
- Premium performance - resists breakage and splitting during application

Recycled Box Tape

- Provides a strong, reliable seal to recycled corrugated boxes
- High tensile strength
- Easily sticks to any surface
- Clear color looks professional on packages
- 3" core diameter - convenient for use with tape dispensers

Shield Natural Rubber Carton Sealing Tape

- High quality adhesive for sealing heavy or recycled cartons
- Can be applied at room or cold temperatures
- Good edge tear and split resistance
- 3" core diameter - convenient for use with tape dispensers

Recycled PET Tape

- Extremely strong with very high tensile strength
- Can be used in place of traditional 1.8 mil acrylic tape
- Made from 90% post-consumer recycled polyethylene terephthalate
- 1 case saves 138 bottles from the landfill
- 3" core diameter - convenient for use with tape dispensers

Whisper Tape

- Good for light to medium duty packaging use
- Performs well in a range of temperatures
- A truly 100% quiet, no noise tape, even when pulled fast
- Reduces warehouse sound pollution
- Super clear and bubble-free

Double Sided Tape

Double Sided Tape, also known as double-coated tape or two-sided tape, is a versatile tape that features an adhesive coating on both sides. It is designed to bond two surfaces together, eliminating the need for visible fasteners, such as screws or nails. Double sided adhesive tape finds its application in a wide range of industries, from arts and crafts to construction and manufacturing.

Double Sided Tissue Tape

- Strong pressure sensitive acrylic adhesive on both sides of a tissue backer
- Strong holding double-sided tape
- Provides excellent adhesion to various surfaces
- Resistant to oils, ultraviolet light, and a wide range of temperatures

Double Sided BOPP Tape

- Combines high tack with excellent shear strength
- Excellent adhesion to low surface energy substrates
- Ideal for rigorous splicing applications and bonding plastics to metals
- General purpose fixing tape

Double Sided Non-Woven Tape

- Excellent repulsion resistance
- Good shear resistance
- High initial tack
- Easily applied to rough surfaces
- Great for bonding plastics and foams

Filament/Strapping Tape

Filament Tape and Strapping Tape are two types of reinforced packing tape that are widely used for securing packages, bundling items, and providing extra strength in various applications. While they serve similar purposes, there are some differences between the two.

Economy Grade Reinforced Filament Tape

- Tape Tensile Strength: 100 lb/in
- High quality rubber adhesive with PET backer
- Pressure sensitive tape - no water required
- Fiber glass reinforced for added strength
- Useful for light duty bundling and strapping applications

Medium Grade Reinforced Filament Tape

- Tape Tensile Strength: 105 lb/in
- High quality rubber adhesive with PET backer
- Pressure sensitive tape - no water required
- Fiber glass reinforced for added strength
- Useful for light to medium duty bundling and strapping applications

Industrial Grade Reinforced Filament Tape

- Tape Tensile Strength: 110 lb/in
- High quality rubber adhesive with PET backer
- Pressure sensitive tape - no water required
- Fiber glass reinforced for added strength
- Useful for medium to heavy duty applications

Heavy Duty Grade Reinforced Filament Tape

- Tape Tensile Strength: 148 lb/in
- High quality rubber adhesive with PET backer
- Pressure sensitive tape - no water required
- Fiber glass reinforced for added strength
- Useful for heavy duty bundling and strapping applications

Strapping Tape

- High strength acrylic emulsion adhesive with tensilized MOPP film backer
- Bundles packages tightly to keep them protected
- Useful in palletizing, bundling, and unitizing packages for shipping
- Pressure sensitive tape - no dispenser required
- 3" core diameter - convenient for use with tape dispensers

Kraft Tape

Kraft Tape, also known as paper tape or gummed tape, is a type of adhesive tape that is widely used in packaging and sealing applications. It is made from a strong, natural, and renewable material known as kraft paper, which is derived from wood pulp. Kraft tapes are often reinforced with fiberglass.

Central Brand Kraft Tape

- Kraft paper backing
- Water activated adhesive
- Economically effective - excellent for industrial purposes
- Reinforced tapes contain fiberglass strands to add strength
- Dispenser required

Flat Back Tape

- Pressure sensitive rubber adhesive applied to a kraft paper backer
- Provides the strength of kraft tape without the need for a dispenser
- Designed to offer a strong and secure seal on a variety of surfaces
- Useful in carton sealing, light duty splicing, packaging, tabbing, and picture framing applications

Kraft Paper Tape- Non-Reinforced

- Kraft paper backing
- Water activated adhesive
- Economically effective - excellent for industrial purposes
- Dispenser required

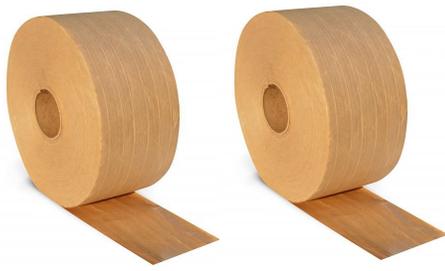

Kraft - Super Seal

- Kraft paper backing
- Water activated adhesive
- Economically effective - excellent for industrial purposes
- Reinforced tapes contain fiberglass strands to add strength
- Dispenser required

Packer's Pride

- Kraft paper backing
- Water activated adhesive
- Economically effective - excellent for industrial purposes
- Reinforced tapes contain fiberglass strands to add strength
- Dispenser required

Shield Reinforced Kraft Tape

- Kraft paper backing
- Water activated adhesive
- Economically effective - excellent for industrial purposes
- Reinforced tapes contain fiberglass strands to add strength
- Dispenser required

Wolverine Tape

- Kraft Paper Backing
- Water-activated adhesive creates a superior hold
- Tamper Evident Seal
- Recommended for Carton Sealing
- Requires a dispenser

Machine Length Tape

Machine Length Tape, also known as machine tape or machine grade tape, is a type of adhesive tape that is specifically designed for use with packaging machinery or tape dispensing equipment. This heavy duty tape is commonly used in industrial and commercial settings to streamline the packaging process, increase efficiency, and ensure secure sealing of cartons or boxes.

Acrylic Machine Length Tape

- Strong adhesion to surfaces
- Smooth unwind and application
- Resistant to breakage and splitting
- 3" core diameter - convenient for use with tape dispensers

Colored Machine Length Tape

- Colored tape with greater holding power
- Strong adhesion to surfaces
- Smooth unwind and application
- Resistant to breakage and splitting
- 3" core diameter - convenient for use with tape dispensers
- Colors: Black, Blue, Red, White, & Yellow

Hot Melt Machine Length Tape

- Pressure sensitive hot melt adhesive
- Strong adhesion to surfaces
- Resistant to breakage and splitting
- Moisture-resistant
- Useful for splicing, bundling, and other lightweight packaging applications
- 3" core diameter - convenient for use with tape dispensers

Masking/Painter's Tape

Masking Tape and Painter's Tape are two common tools used in various industries, particularly in painting and crafting projects. Both masking tape and painter's tape are adhesive tapes with a paper backing that can be easily torn by hand.

General Purpose Masking Tape

- Natural rubber adhesive with heavy duty semi-crepe paper backing
- General purpose masking tape for non-critical applications
- Easily torn by hand for simple application
- Water and oil resistant
- Long lasting, non-yellowing
- Easy to peel off surfaces

Industrial Grade Masking Tape

- Natural rubber adhesive with heavy duty semi-crepe paper backing
- Superior choice for industrial and construction workers
- Easily torn by hand for simple application
- Water and oil resistant
- Long lasting, non-yellowing
- Easy to peel off surfaces

Professional Grade Masking Tape

- Natural rubber adhesive with heavy duty semi-crepe paper backing
- Superior choice for industrial and construction workers
- Easily torn by hand for simple application
- Water and oil resistant
- Long lasting, non-yellowing
- Easy to peel off surfaces
- 3" core diameter - convenient for use with tape dispensers

Heavy Grade Masking Tape

- Natural rubber adhesive with heavy duty semi-crepe paper backing
- Heavy grade masking tape for professional settings
- Easily torn by hand for simple application
- Water and oil resistant
- Long lasting, non-yellowing
- Easy to peel off surfaces

Painter's Tape

- High performance acrylic adhesive
- Clean removal for up to 21 days after applications
- Durable and lightweight
- Commonly used on drywall, glass, hardwood floors, and wood trim for masking during painting

Shield Painter's Tape

- High performance acrylic adhesive
- Clean removal for up to 21 days after applications
- Durable and lightweight
- Commonly used on drywall, glass, hardwood floors, and wood trim for masking during painting

Printed Tape

Printed Tape is a highly visible tape used to secure potentially hazardous areas and provide warnings. It is designed to alert people to potential dangers, restrict access, and ensure safety in various situations. Printed packing tape typically features bold and contrasting colors, such as red and white, to enhance visibility and attract attention.

Caution Tape

- Acrylic adhesive tapes with "CAUTION" pre-printed
- Gives maximum attention to shipping and security directions
- Useful for packaging and shipping applications

Fragile Printed Tape

- Acrylic adhesive tapes with "FRAGILE HANDLE WITH CARE" pre-printed
- Gives maximum attention to shipping and security directions
- Ideal for shipping and packaging fragile items

Stop Sign Printed Tape

- Acrylic adhesive tapes with Stop Sign Image pre-printed
- Gives maximum attention to shipping and security directions
- Useful for packaging and shipping applications
- Says "If Seal is Broken or Package Damaged, Check Contents Before Signing Receipt"

Security Tape

Security Tape, also known as tamper evident tape or tamper proof tape, is a specialized adhesive tape designed to provide visual evidence of tampering or unauthorized access to sealed packages, containers, or surfaces. It is widely used in various industries to enhance security, protect valuable items, and ensure the integrity of sealed goods during transit or storage.

Tamper Evident Hot Melt Tape

- Creates a tamper evident seal
- Pattern creates a visual alert once seal is broken
- Print is impossible to realign after being opened

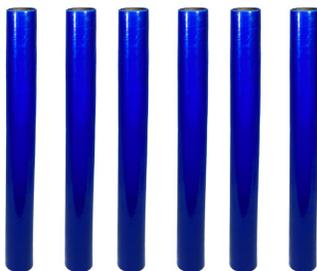

Surface Protection Tape

Surface Protection Tape, also known as construction tape or surface protection film, is a type of adhesive tape specifically designed to safeguard surfaces from damage, scratches, and debris during transportation, construction, renovation, or manufacturing processes. It serves as a temporary protective layer that can be easily applied and removed without leaving residue or causing damage to the underlying surface.

Carpet Protection Tape

- Safeguards carpets from debris
- Self-adhesive tape
- Residue-free for up to 45 days after placement
- Perfect for contractors working in larger spaces
- Color: Clear

Hard Surface Protection Tape

- Safeguards wood floors from debris
- Self-adhesive tape
- Residue-free for up to 45 days after placement
- Perfect for contractors working in larger spaces
- Color: Blue
